

Embarcadero® All-Access™

On-Demand Tooling for Your Demanding World

EMBARCADERO
TECHNOLOGIES®

Embarcadero® All-Access™ is a powerful product solution that transforms the way you buy tools. All-Access lets you focus on the problems and not the tools or platforms. Every All-Access Pass unlocks a powerful tool chest of award-winning, multi-platform Embarcadero products. All-Access makes it easier than ever before to acquire, deploy, use, and manage your software development and database tooling.

INDUSTRY'S MOST COMPREHENSIVE MULTI-PLATFORM TOOL CHEST

In today's constantly changing business and technology environment, optimizing your tooling to match your organization's profile can be difficult. The traditional approach is to go out and buy new tools whenever you need them. This can be time-consuming and expensive, analogous to driving to the hardware store whenever you need a new tool. With All-Access, we simplify it for you. You get instant access to the industry's best tools when and as you need them.

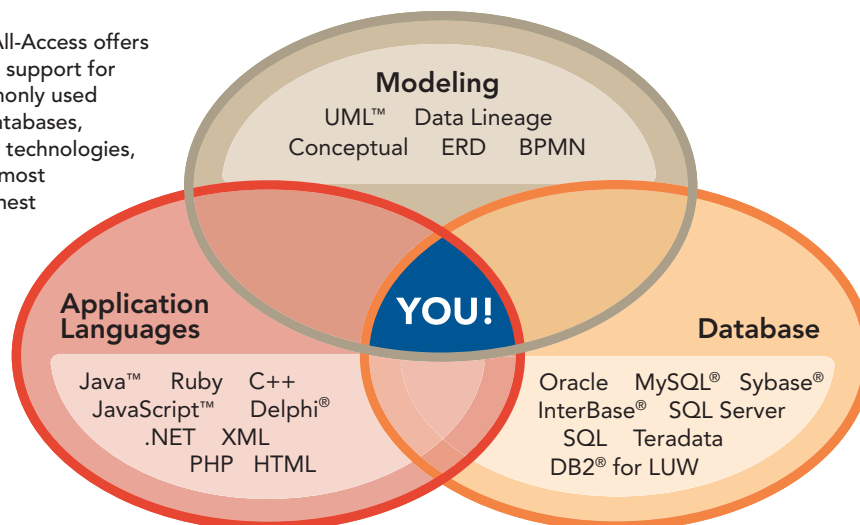

LOW TOTAL COST OF OWNERSHIP. OFF-THE-CHARTS VALUE!

The tools you use play an essential role in achieving the high levels of productivity and quality your business demands. However, in today's tough economy, the money isn't always there to get all of the tools you need. Embarcadero All-Access gives you the solution, with perpetual licenses and an annual membership. With All-Access you get all the tooling you need for the cost of only a few individual products. With four different levels, there's a profile that's right for you. Predictable annual renewals mean no unexpected license or support costs midway through your project. An All-Access membership includes support, updates, and upgrades, as well as any new products that may be introduced into your All-Access level.

EASY LICENSE ACQUISITION AND MANAGEMENT

License and vendor management can be a monumental challenge, especially in the face of reorganizations, technology changes, and project resource re-allocation. Embarcadero All-Access Passes are versatile and easy-to-manage assets, each providing access to a full tool chest of products, usable by a variety of roles in your organization. All-Access is available under a variety of licensing models to suit your needs, including network licensing options such as concurrent, for central and optimized software asset management.

Embarcadero All-Access offers comprehensive support for the most commonly used frameworks, databases, languages, and technologies, giving you the most versatile tool chest on the planet.

All-Access includes:

- The industry's only comprehensive multi-platform tool chest for developers, architects, and DBAs.
- Perpetual licenses for the products your team relies upon.
- Privileged access to download and unlock products online or onsite, as you need them.
- Access to any new products that may be introduced into your membership level.
- Annual membership that includes support and maintenance to ensure your products are always up-to-date.

Benefits:

- Lowers your TCO for developer, architect, and DBA tooling.
- Reduces the complexity of license acquisition and management.
- Provides the broadest multi-platform coverage available across the languages, frameworks, databases, and technologies your team needs to run your information systems.

	Embarcadero All-Access Member Levels			
	Bronze	Silver	Gold	Platinum
Rapid Application Development	Delphi® Professional	Delphi® Enterprise	Delphi® Architect	Delphi® Architect
	C++Builder® Professional	C++Builder® Enterprise	C++Builder® Architect	C++Builder® Architect
	Delphi Prism™ Professional	Delphi Prism™ Enterprise	Delphi Prism™ Enterprise	Delphi Prism™ Enterprise
Database Application Development	Rapid SQL® Standard	Rapid SQL® Professional	Rapid SQL® Professional	Rapid SQL® Professional
	Rapid SQL® Developer Standard	Rapid SQL® Developer Professional	Rapid SQL® Developer Professional	Rapid SQL® Developer Professional
	Embarcadero® Change Manager™ Standard	Embarcadero® Change Manager™ Professional	Embarcadero® Change Manager™ Professional Unlimited	Embarcadero® Change Manager™ Ultimate
		DBArtisan® Standard	DBArtisan® Professional	DBArtisan® Workbench
Design & Architecture	ER/Studio® Viewer	ER/Studio® Viewer ER/Studio® Standard	ER/Studio® Enterprise	ER/Studio® Enterprise
	ER/Studio® Enterprise Portal 1-Connection	ER/Studio® Enterprise Portal 1-Connection	ER/Studio® Enterprise Portal 1-Connection	ER/Studio® Enterprise Portal 1-Connection
		ER/Studio® MetaWizard Import only	ER/Studio® MetaWizard Import & Export	ER/Studio® MetaWizard Import & Export
