

Now fully cross-platform with Mac OSX support!

**Action (Pervasive) PSQL** is one of the most reliable, low maintenance, high- performance database management systems in the world. The v12 Server, Vx Server, and Workgroup editions keep users up-to-date version with new capabilities for boosting performance, supporting mobile cloud computing, expanding into global markets. All of this while serving both traditional and virtual users and keeping the focus on zero DBA, ease of use, and high productivity.

## KEY BENEFITS

- > Online data defragmenting to boost performance
- > Live migration on all editions
- > Fewer failed license validations
- > Split-second reports and queries
- > Data analytics and integration
- > More globalisation support
- > Data-only licensing for Vx Server
- > Simplified installation Backward compatibility

## Boost database performance

Busy databases can develop data fragmentation, slowing access and response times. The new self-service v12 Defragmenter lets you find fragmented files and fix them to maintain performance. Defragmenter works with the database online, so you can use it without disrupting operations or customer access to applications and data.

### Before and after defragmentation

Here are the results of a test of a heavily used file of 2.5M records, before and after defragmenting.

Defragmenting provides faster reports and benefits for storage, backup, and data capacity licensing.

## Live migration of any virtual machine

Live migration in Vx Server has been extended to PSQL v12 Server and Workgroup. Now all PSQL v12 virtual machine users can make more hardware and configuration changes without invalidating their license, delivering greater flexibility in cloud and virtualised operations.

*Perfect Replacement for  
Btrieve 6.15*

# Action Btrieve 12

## Btrieve is Back!

### Key Benefits

#### Compatibility

No changes required for existing 6.15 applications

#### Latest operating systems

Move 6.15 applications to the most current Windows OS

#### Modern installer

Including silent installation options

#### New features

Gain access to many newer Btrieve features

### Supported Platforms

Windows 10

Windows Server 2012

Windows 8

Windows Small Business Server 2011

Windows Server 2008 R2

Windows Foundation Server 2008 R2

Windows 7

Windows Small Business Server 2008

Windows Server 2008

Windows Vista

### Cost Effective Licensing Model!

### Overview

Btrieve is back. PSQL Engineering has delivered an up-to-date, supported on Windows 10, ready to run your application, Btrieve 6.15 replacement. Action is making Btrieve 12 available to customers who are currently shipping or running applications on Btrieve 6.15. If you've been looking for a database engine that works with your application and is supported on the latest Windows platform, look no further.

### Key Features

#### Btrieve 6.15 Compatible

Btrieve 12 is file format and API compatible with Btrieve 6.15. Your Btrieve 6.15 application can run with no changes on Btrieve 12. No need to recompile code or rebuild file formats (unless you need to write to 5.x files).

#### Runs on Current Operating Systems

Support for all of the latest Windows operating systems, including Windows 10.

#### New Features

Btrieve 12 includes many new features: A modern installer, improved concurrent file use, Auto Reconnect, Btrieve Control Center (BTRCC), wire encryption, IPv6 support, centralized logging, online help and documentation, updated utilities, and a lot more.

#### Simplified Settings

Btrieve 6.15 provided many settings to handle restrictions on memory and other system resources that were common at the time of its release. Btrieve 12 takes advantage of the increased capacity of modern operating systems and hardware by simplifying resource settings. You no longer need to micromanage use of resources.

#### New Licensing

Btrieve 12 is licensed with a Limited Distribution License (LDL). A Btrieve 12 LDL allows the holder to create and deploy licenses totaling 1000 users.

#### Available Now

Btrieve 12 Limited Distribution Licenses are available for purchase now from MicroWay.

#### DOWNLOAD A TRIAL

Btrieve 12 trials are available from [www.microway.com.au/psql](http://www.microway.com.au/psql)  
Trials include a license for 5 users and last 30 days.
