

MindManager®

FOR WINDOWS

PRODUCT OVERVIEW

Information is invaluable, but it's also overwhelming

MindManager simplifies the way you process and manage information, by turning scattered ideas and data into clear visual maps that are easy to build, organize, evolve and share.

Every day, millions of people in thousands of global organizations use MindManager to more effectively think, plan, communicate, collaborate and get things done across their most business-critical tasks.

- Microsoft Internet Explorer 11.0 or greater
- Broadband Internet Connection

"Each day, I know exactly what I need to do, what I need to sign off on, and can track priorities and processes."

– Automation engineer, ABB Group

Work at the speed of mind

- Quickly break main concepts into smaller ones, while keeping connections simple and clear
- Add detail and context to tasks as you create them, without stepping out of the flow
- Rearrange or replicate information with simple drag & drop

Seal your communication cracks

- Transparently show ownership, priorities, deadlines and more
- Visually connect related action items, to eliminate redundancy and encourage collaboration
- View projects by resource, tasks, in Gantt charts and more for visibility into status, red flags & risks

See your world in one glance

- Connect to data in desktop files & content repositories, and to over 800 apps via Zapier
- Add, correlate and view images, web links, media and more
- Fluidly change the information you're seeing or showing, without switching windows or splitting screens
