

# VYOND

## WHY VYOND?

Vyond allows anyone in any industry or job role to create dynamic, engaging media. With features that go beyond moving text and images, you can build character-driven stories or compelling data visualizations that engage audiences and deliver results. Vyond combines an intuitive, powerful video editing platform with training, support, and enterprise-level security to ensure that organizations of any size and individuals of any skill level can make media that moves.

## ENTERPRISE LEVEL SECURITY

Vyond Studio is designed to comply with your organization's security requirements. Administrator-controlled password compliance and compatibility with both Google and Office 365 single sign-on ensure that your sensitive company data will remain secure.

As enthusiastic advocates of consumer and enterprise data privacy, it's important that you know that your data is in good hands. We take the handling of user data incredibly seriously, and fully comply with GDPR data handling requirements.

## ENGAGE YOUR AUDIENCE WITH DYNAMIC VIDEO

Dynamic content can make all the difference in creating a video that leaves a lasting impact. Vyond Studio makes it easy to create dynamic video for any situation. Mix multiple styles, create custom characters for any setting or job role then bring them to life with realistic movement, actions, and automatic lip-sync. Or spice up one of our pre-made templates with your own imported media. Regardless of artistic or technical aptitude, Vyond Studio makes it simple for anyone to make video that leaves an impact.

## STAY ON-BRAND

Vyond Studio makes it easy to maintain consistent branding across your team's videos. Upload company logos to appear on all videos, easily change prop colors with our new contemporary style to match your brand, share and re-use intros, outros, and other commonly used sequences amongst your team, and much more.

## EASY TO USE

Vyond Studio is built to be easy to pick up, removing the complexity of creating professional video. Our new expanded timeline brings the most-used features of Vyond Studio to the forefront, allowing users to make quick changes to the timing of actions, effects, and camera movements directly from the timeline itself.

## TEAM COLLABORATION

Vyond Studio makes it easy for entire teams to work together and stay on the same page. Share custom characters, uploaded assets, and custom templates throughout your team - an easy, efficient way to save time and stay on-brand. Team members can share videos throughout their organization, making it simple to distribute production tasks throughout your team.

## GET TEAMS UP TO SPEED WITH VYOND ACCEL

Vyond Accel helps large organizations define, deliver, and standardize video-making skills and best practices to get the most out of your communications. The Vyond Accel program takes the unique needs and goals of your organization and provides individualized training and resources to get your team up to speed and ready to create engaging, effective media.
