

Quickly deliver training with Reach 360™ —the simple way to reach more learners

For today's workforce, access to effective skills training is a must. According to Gartner research, the number of skills required for a single job is increasing by 10% year over year. Traditional learning distribution solutions aren't built to meet these mounting reskilling needs. They're costly, complex, and impractical for many workers.

Reach 360 is an easy-to-use distribution tool that integrates with Articulate 360 to complement your learning management system (LMS) and deliver training to more learners.

- Publish your Storyline 360, Rise 360, or third-party training in minutes
- Train deskless workers, contractors, partners, and other hard-to-reach learners
- Track and analyze learner activity with exportable reports
- Manage variable training needs with flexible, active learner pricing

Use cases:

- ✓ Deskless workers
- ✓ Contractors
- ✓ Partners
- ✓ Vendors
- ✓ Customers

“If we enter a new market and need to dig into a particular product or selling concept, it takes just a few moments to create professional-looking training content. We can then share that training with the field team almost instantly.”

Amber Weinfurtner,
SVP of Sales
