The tools you need to stay ahead of swiftly changing business needs

Create e-learning with industry-leading tools, now with integrated AI features

To build high-quality, engaging e-learning, you need robust, easy-to-use tools. Articulate 360 includes two intuitive authoring apps, with integrated AI, to build stunning courses up to 9x faster and localize into 70+ languages.

Versatile	**Intuitive**
Beautiful	**Integrated AI**
Powerful	**Integrated Localization**

Imagine it and create it with the industry's best loved authoring tools

- Build responsive, immersive courses that look great on any device
- Craft dynamic, media-rich learning experiences even faster
- Easy enough for beginners and powerful enough for seasoned pros
- Jumpstart creativity with millions of included images or generate stunning AI images with AI prompts
- Translate, validate, and manage global e-learning from within the platform

Why choose Articulate 360

Leaders training today's workforce face mounting pressure to grow skill-building programs while needs evolve faster than ever. Articulate 360 has everything you need to author beautiful, effective, multi-device courses for any learner.

With the Articulate 360 AI Teams plan, you'll get our award-winning course authoring apps, **Rise** and **Storyline**, with integrated **AI Assistant**, plus:

- Distribute training faster with **Reach**, an integrated frictionless LMS
- Streamlined web-based feedback with **Review**—no download or license needed
- **Content Library** with **20 million** + assets, including images, video, icons, and course templates

Add **Localization** to your plan to cut your global course authoring timeline by two-thirds.

One platform, limitless possibilities

Rise

Rise is the #1 software for creating beautiful, engaging courses that work on any device. The intuitive authoring app, now with the magic of AI, makes building stellar courses up to 9 times faster. Get started quickly and confidently, no matter your skill level. Start from scratch, use a template, or partner with AI Assistant to create effortlessly with rich, multimedia block-based modules.

See what makes Articulate the e-learning leader

Supercharged with AI

Create workplace training up to nine times faster with Articulate 360 and AI Assistant. Keep pace with rapidly evolving training needs with high-quality help from an AI Assistant trained in instructional design. Stay in control while you brainstorm, iterate, and generate effective and engaging training faster than ever.

Accessibility-focused

Articulate 360 includes robust accessibility features such as keyboard navigation, screen reader support, and customizable closed captions that broadly support WCAG and Section 508 accessibility standards. We're committed to developing equitable tools and regularly release new features to improve online learning for all.

Intuitive for everyone

With Articulate 360, anyone on your team can develop effective, interactive training. Our platform is designed for creators of all skill levels—from instructional designers to general business users.
Beautiful on any device

Craft a consistent learner experience. With Articulate 360's responsive design capabilities, courses look great on any device—mobile, tablet, or desktop.
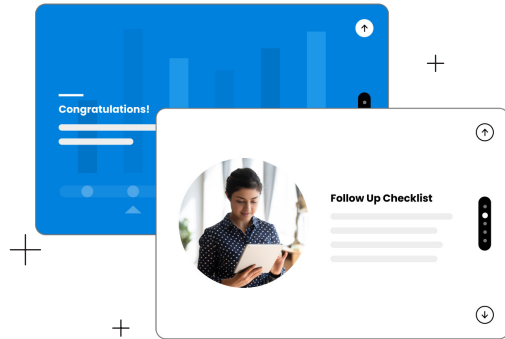

Learning, fueled by community

Join E-Learning Heroes (ELH), a vibrant community of 1.4 million e-learning pros. Connect with peers, learn new skills, and grow your career with thousands of inspiring and helpful resources.

97%

97% of customers say courses they created using Articulate 360 led to positive business outcomes, such as improved onboarding time, skill development, and compliance results.
